KORKAT

ABOUT US

Named after our owner's daughters Korin and Katie, we've grown since 2003 to be one of the largest distributors in the Southeast. KORKAT is focused on Your Play as Our Work. We are one of the Southeast's largest suppliers of playground equipment, site amenities, specialty surfacing, shade structures, picnic shelters, picnic pavilions, water slides, splash pads, athletic equipment and more!

DESIGN AND FULFILLMENT

Your dedicated sales representative is responsible for working with you from start to finish. They will assist with budgeting, planning, and fulfillment. Your fulfillment team consists of your estimator, designer, and installation coordinator. They are responsible for job costing, laying out components, and interacting with our manufacturing partners. Once your order is placed, your shipping and installation coordinator works with your team and design consultant to ensure a smooth installation and turnover.

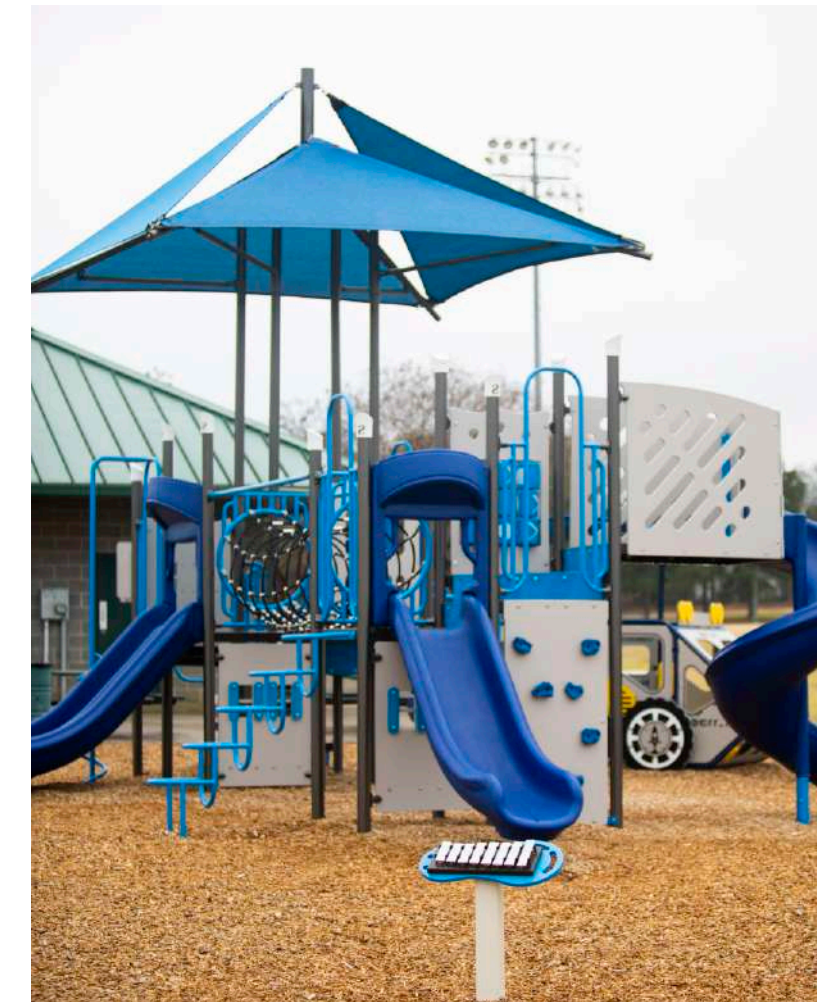

Every quote includes a free design package and estimate! Many of our installations qualify for a maintenance program. Regular certified maintenance keeps your investment in high quality condition for years! From slides and shade canopies, to site amenities and safety surfacing, we can furnish and design your entire outdoor environment.

COMMERCIAL PLAYGROUNDS

STEEL

At KORKAT, we never forget our ultimate customer - the kids. We strive to produce commercial playground equipment that is amusing, sturdy, safe, and challenging for children. These playgrounds are tested to withstand anything from little toddlers to adults (all kids at heart). Our playground tools inspire an array of energetic, inventive, and supportive play. Best of all, we will help you generate an entirely personalized playground plan that is uniquely yours.

Childhood is about exploring the world, challenging growing muscles, and using imagination in new ways. It's proven that children need unstructured play to grow and develop into happy, healthy, and well-adjusted people. Are you ready? Let's go play!

COMMERCIAL PLAYGROUNDS

RECYCLED

Have you recycled anything lately? You might just be helping us to re-imagine play! Our recycled playgrounds are made from reclaimed post consumer plastic products such as milk jugs. Approximately 95% of our recycled playgrounds are made from recycled material, with posts and decks being 100%. So go ahead and keep recycling. For every 8 milk containers you recycle, we can create 1 pound of plastic lumber to help children like yours play!

There's no limit when creating a one-of-a-kind playground. With the right space and budget, our team of creative designers can bring your ideas to life.

COMMERCIAL PLAYGROUNDS THEMED

There is no limit when designing themed playgrounds. We work with our local manufacturer to create one-of-a-kind playground themes that can accommodate any space or budget. We can help you tell the unique story of your community through a custom outdoor space. These playgrounds encourage kids to embrace their imagination and creativity.

Themed playgrounds are available in steel or recycled play structures, as well as independent play equipment. Our team is ready to help you design your destination playground. Let us help you bring your unique vision to life!

FREESTANDING AND MUSICAL EQUIPMENT

Sometimes independent play can be overlooked. We offer a variety of independent play items that challenge a child's physical abilities while also encouraging cognitive and communication development. Consider swings, climbers or musical equipment to finish off your playground space.

Our outdoor musical instruments are extra special. Aren't feeling too musically inclined? That's okay! Our pieces are designed to always produce a harmonically pleasant tone. Musical equipment is a great addition to any space. Get outside and make some noise!

SHADE STRUCTURE AND CANOPIES

Staying protected just got a whole lot cooler. We offer a full line of top-quality standard and custom shade structures that can protect nearly any outdoor location. We offer everything from large, cantilever shade solutions to smaller canopy designs.

We offer a wide range of hips, crescents, cantilever shades, sails, and canopies. All commercial shades are designed to deliver creative solutions and unique style, while also protecting you from the sun's harmful UV rays. These structures provide shade at the beach, pool, resort, patio, restaurant and even over a park bench or playground area.

SHELTER, PAVILIONS, PERGOLAS AND GAZEBOS

Classic construction meets modern design with our outdoor steel structures. We're the company you can trust for the unique, durable, and attractive quality steel structures that creates the right outdoor environment for you.

You can find our shelters at a variety of markets including recreation, sport facilities, zoos, housing developments, business and office parks, hospitality and schools.

Each shelter is proudly made in the USA! Hidden connections provide a clean look while also withstanding high winds and snow loads. We offer sealed drawings to ensure your shelter meets local building codes.

SPLASHPADS AND WATERSLIDES

Hours of splashing fun are guaranteed while also providing subtle physical and mental challenges at the same time. KORKAT components feature tough, but safe construction: stainless steel and brass production combined with high-quality material, tamper proof hardware and smooth surfaces.

KORKAT offers you the opportunity to turn your public or private pool into a water park with our custom line of water slides. These affordable, commercial-grade water slides provide non-stop, fun screaming, watersplashing fun for all ages. We offer turn-key solutions for your next addition to your pool or splash pad.

SITE AMENITIES

STEEL

We offer high-quality site furnishings that complement any outdoor commercial space. With our large selection of outdoor amenities, you'll find a design that completes your environment that will last.

Our amenities come in several different styles and colors. We offer picnic tables, park benches, trash receptacles, grills, bike racks and many other site furnishings. Each amenity is made with durability and craftsmanship in mind. Each piece is made with a tough steel frame. Ask us about how we can customize the amenities to include your logo or custom text!

SITE AMENITIES

FITNESS EQUIPMENT

Outdoor fitness equipment is the perfect addition to any outdoor area. Create a space for parents to workout while watching their kids on the local playground. Install fitness equipment along the city park walking trail. These are just a couple of ideas of how to use the outdoor fitness equipment line.

Each piece is designed with ergonomics in mind and offered in several different colors. You can rest assured that each product has been thoroughly researched and tested by the experts. Most pieces have multiple functions that can work a variety of muscle groups. Just like our playground and site amenity essentials, each piece is designed to withstand the elements.

SITE AMENITIES

DOG PARKS

Who says kids get to have all the fun? Dogs deserve a fun area to play in too! Our equipment caters to dogs of all sizes and abilities. Dog park equipment is a great addition to any park or outdoor space. As every good pet owner can tell you, being a good companion is a two-way street. That's why dog park equipment is so important. An outdoor dog park gives the opportunity for dogs to get their much-needed exercise—anyone can have fun while at it!

Each piece is durable, easy to clean and will not deteriorate in the sun.

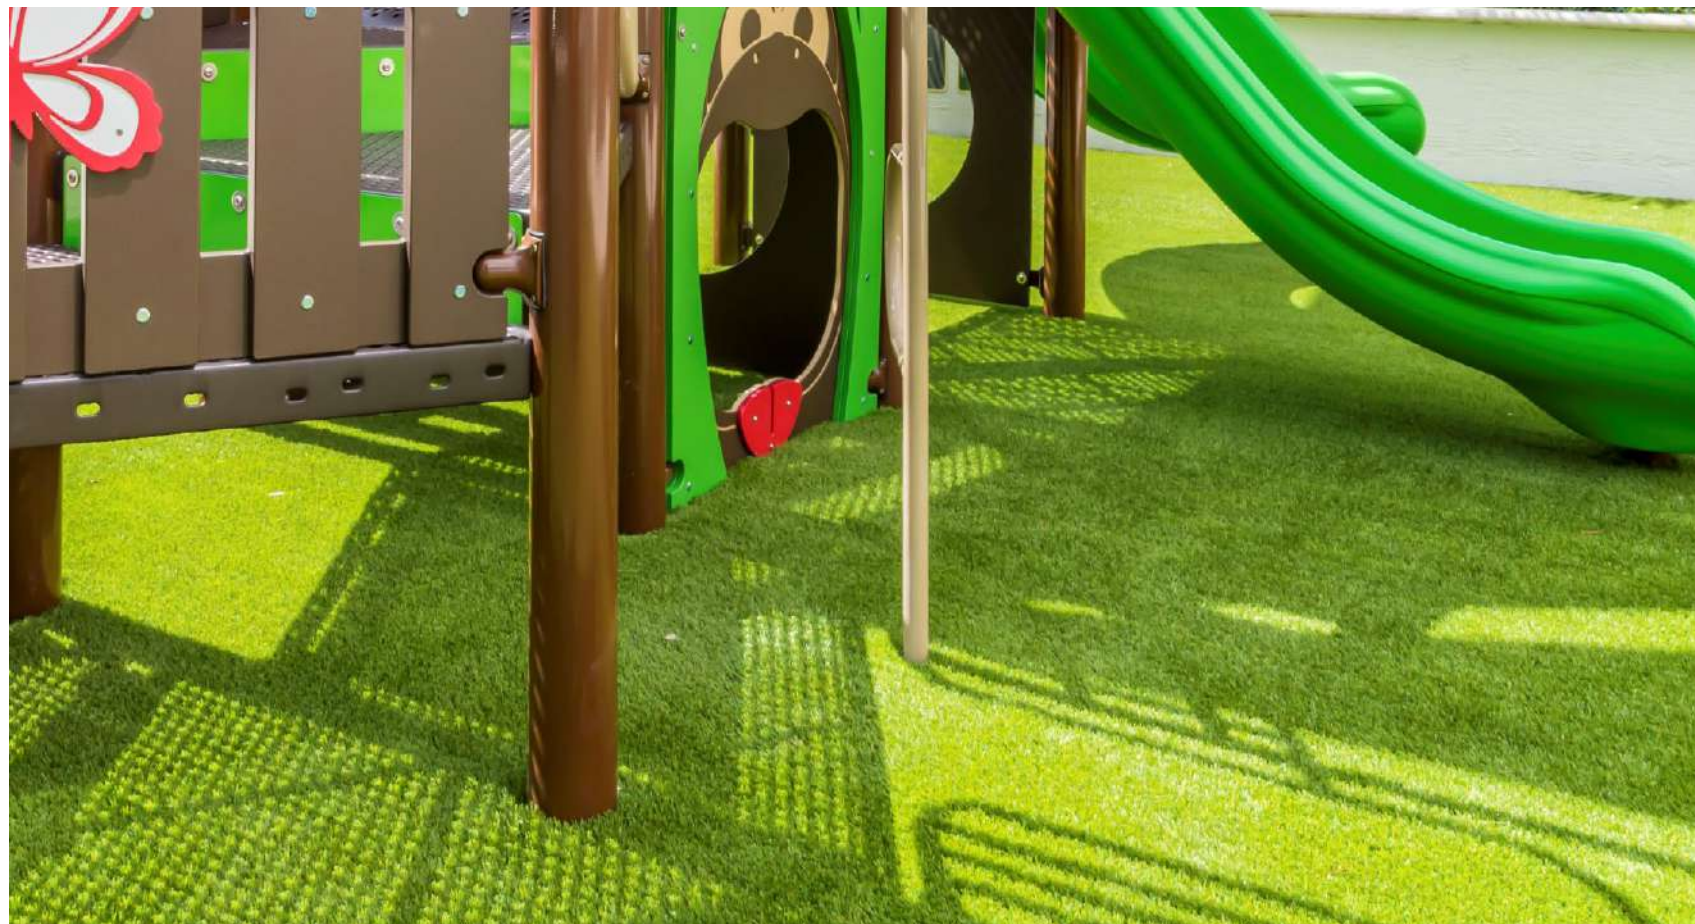

OUTDOOR SAFETY SURFACING

With over 40 years of experience combined you can be confident in making us your provider of assured covering. We understand your need for a combination of fun, durable and above all safe surfacing to base your outdoor activities. Whether we are reducing impact from playground falls or making your jogs more comfortable, Outdoor Safety Surfacing is the best choice.

Our company has the perfect combination of surface choices and maintenance services to accurately transform your vision into a safe and environmentally conscious reality. Let us help you convert the images you have into the ideal outdoor surfacing that we specialize in. We will be with you every step of the way from choosing the best surfacing option for your needs, to maintaining our products, to ensuring prime safety features for years to come

We offer EPDM, Bonded Rubber, Artificial Turf, Playground Safe Engineered Wood Fiber and Rubber Mulch. Each surfacing type comes in a variety of colors.
