

PARKING SOLUTIONS INSPIRATION

play, relax, live.

Covering your cars, bikes, and boats is easier and more stylish than ever thanks to the high-quality, durable shade structures offered by Superior Recreational Products! Our shade parking solutions work well in settings like surface parking lots, parking garages, boat storage facilities, car dealerships, and more! With added options like solar panels, electrical access panels, and our quick release Glide Elbows, we are committed to providing you the product you need.

WHAT DO WE OFFER?

Superior Recreational Products proudly offers both fabric and all-steel shade structures and site furnishings. Our products are suitable for bus stops, bike parking, parking kiosks, and so much more!

Florida Hospital Waterman
TAVARES, FLORIDA

Florida Hospital Waterman is one of the 22 campuses of the Florida Hospital System, which is one of the largest not-for-profit healthcare providers in the country. To better cater to their patients and staff, the hospital wanted to incorporate shade for their parking lot. Superior provided them with a 5 bay 18 x 20ft Wavecrest Waterproof Tensile Structure engineered to withstand 135mph winds.

GreenArch Apartments

TULSA, OKLAHOMA

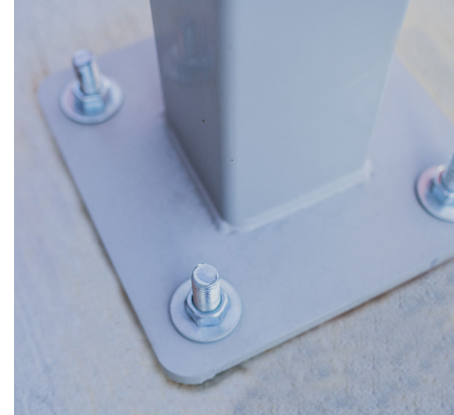

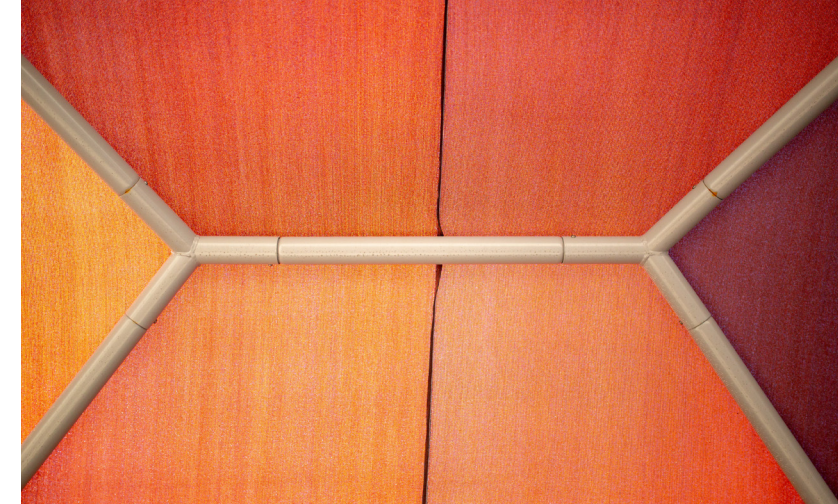

This apartment community provides its residents with luxury apartments and amenities for those seeking a downtown lifestyle. To improve on this, they chose to enhance their parking lot with durable shade structures, which help to lower the internal temperature of the cars, provide protection from rain, and reduces harsh sunlight exposure.

CBB Bank
DALLAS, TEXAS

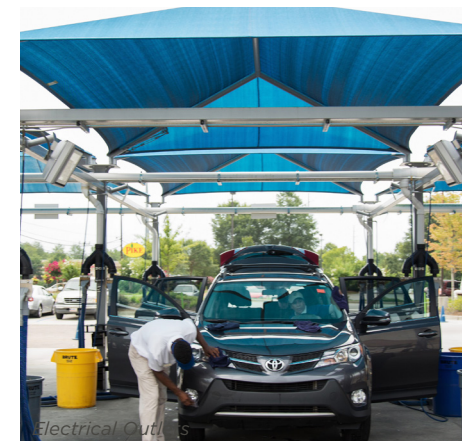

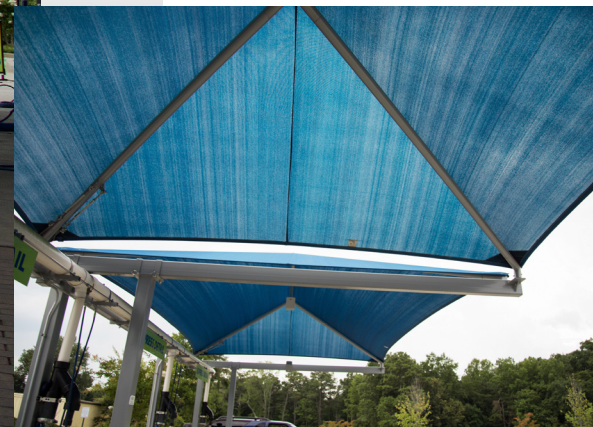

CBB Bank in Dallas, Texas was in need of parking lot shade for staff and guests. Providing shade to parking lots can help reduce the temperature of the car, making it safe to drive. The Superior Shade solution was a custom shade with surface mounting and sunblaze colored fabric. This structure is a three dome offset tee cantilever with our Glide Elbow mechanism. The size of this shade canopy measures 63' x 17.5' x 8.5'.

Mr. Clean Car Wash
NEWNAN, GEORGIA

This shade was entirely custom made. The Mr. Clean Car Wash in Newnan, Georgia needed a shade that would provide their patrons and employees protection from the harsh sun. With our partner Korkat, Superior Shade worked to provide the ultimate shade that would protect patrons and employees without compromising their services. These ultra-custom shades are electrically-equipped to host both lights and vacuums.

Country Lane Elementary School
BROKEN ARROW, OKLAHOMA

Country Lane Elementary School in Broken Arrow, Okla. was in search of walkway canopies to provide sun protection for students and teachers. Superior Shade worked with Play by Design, Inc. to incorporate suspended cantilevers, so children can stay shaded as they walk to the bus line and to the playground. The cream color of these shades was chosen to complement the existing design of the school building.

Pristine Car Wash & Detail
MELBOURNE, FLORIDA

Pristine Car Wash in Melbourne, Fla. offers full service car washes for the community. To help beat the Florida heat, our SRP Certified Partner Southern Park and Play helped create a custom Super Dome shade structure for their outdoor vacuum space. This structure is a Semi-Super Hip Shade that measures 40' x50' x10'. It is surface mounted and has Mariner Blue metal with True Blue fabric.
