A COLLECTION OF
DOG PARK AMENITIES

DOG PLAY
SHAPE
FURNISHINGS

A photograph of a dog park. In the foreground, a medium-sized, scruffy brown and tan dog is running across a green lawn towards the right. In the background, there are several pieces of dog park equipment: a circular wooden hoop on the left, a small wooden A-frame with blue plastic rungs in the center, and a larger structure with two blue circular tunnels on the right. The background is a dense forest of tall, thin trees.

For Dogs *and their owners!*

Dogs were born for activity, so many behavior problems are caused by a lack of physical and mental activity. Our dog park products provide opportunities to exercise their minds and bodies by catering to dogs of all abilities and confidence levels. Enhancing your dog park with our products will make every day a paw-tay!

WHY WE'RE BETTER

Our posts and decks are made from recycled post-consumer plastic products such as milk jugs. This reliable lumber is vandal-resistant, won't deteriorate from the sun, and is warranted from rotting for 15 years!

We Use Quality dog park materials

At Superior, we only use quality materials for your dog park — whether purchasing just a **bench** or a **full dog park package**. Our dog park products are proudly **made in the USA**. Our products are built to last and provide fun for years to come.

1

We offer the look and feel of wood without the unwanted maintenance.

Our recycled posts and decks look just like wood without the wanted maintenance. These reinforced posts and decks are vandal resistant, protected from rotting or splitting, and have UV additives to protect them from fading. Additionally, this material is resistant to termites, salt spray, and the like.

2

Our rotationally-molded plastics have anti-static inhibitors.

Our rotationally-molded plastics, such as those used for tubes and roofs, are made of $\frac{3}{8}$ " thick low density polyethylene (LDPE). They are UV stabilized for reduced fading and also contain anti-static inhibitors.

3

Our Superdurable powder coat leaves your equipment protected.

Our steel accents are coated with 3 mils of zinc-rich primer and 3 mils of Superdurable powder coat. These 6 mils protect your product from sun discoloration and salt (in coastal regions).

4

Our textured HDPE panels are strong and UV stabilized.

Our $\frac{3}{4}$ " thick textured high density polyethylene is used for our panel accents, such as on our Dog Log. With UV stabilization, we ensure your carefully selected color will remain bright and colorful for years to come. These panels are stain- and graffiti-resistant and will not splinter or crack.

5

Our shades block harmful UV rays.

Our shade fabric blocks 91%-99% of harmful UV rays, depending upon the color you've chosen. Our fabric is also flame retardant, with some of our color choices being California Fire Marshal certified.

6

We offer stainless steel hardware, so you won't worry about rust.

99% percent of the hardware we use on our dog play equipment is stainless steel, with less than 1% being corrosion-resistant coated steel. Our hardware is packaged individually and labeled, allowing for more efficient installation.
