

Adventure Peak

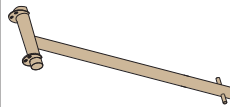

INSTALLATION INSTRUCTIONS

Know What's Below

Before you dig, it's important to know what's under the ground before you start. Things like cable wires, electric lines, sprinkler systems, sewage pipes, water pipes, telecommunication lines, drainage pipes, and sprinkler systems might be there. You can find out by calling your state's underground utility service at 811.

Conduct an Inventory

Begin your installation by checking pieces and hardware, assuring everything you need is onsite when you begin.

	NO.	ITEMS NAME	PICT	COLOR	QTYS	PKGS	SET
