

## Solar Charging station spec sheet

### Solar Charging Bench

- Low profile, rear-mounted, 30-Watt poly-crystalline solar panel
- Four stage battery management system
- 2 14-AMP batteries
- 2 Dual USB 2.0 Rapid-Charge ports
- Uses intelligent device recognition.
- Wet and over-temperature protection
- Capable of charging four devices simultaneously
- Water-resistant power enclosure
- Handicap accessible
- Designed to function year round
- North or South facing panel options
- Theft-resistant mounting with steel security screws
- Pre-drilled for installation with 1/2" anchor bolts

### Solar Charging Pole

- Adjustable, raised, 60-Watt poly-crystalline solar panel
- Four stage battery management system
- 36-Amp Gel Cell Deep Cycle Battery
- 4 Dual USB 3.0 Rapid-Charge ports
- Capable of charging eight devices simultaneously
- 30" round table
- Dedicated USB port under table for Handicap access
- Uses intelligent device recognition.
- Wet and over-temperature protection
- Water resistant power enclosures
- Designed to function year 'round
- Theft-resistant mounting with steel security screws
- Choice of pre-drilled 12" base or 36" in-ground extension
