

Circa™

The Circa 2000™ will park bikes safely and securely. The concentric design of the Circa™ bike rack helps guide bikes into place while spacing them safely apart. Once in place, the Circa 2000™ bicycle rack offers bikes two distinct contact points, at front and rear, for secure bike locking. The Circa 2000™ bike rack comes with either Galvanized, Powder Coated, or Stainless steel finishes and is built to last.

Galvanized

Withstanding the elements with little to no maintenance, our galvanized products are durable and weather to a battleship grey. For this finish, the product will have vent holes that will allow draining after a hot-dip in the molten zinc tank. A galvanized product is an economical choice that resists rust. This finish comes with a 5-year warranty.

Stainless Steel

Crafted from stainless steel and polished to a rich, Satin #4 finish, these racks are a highly durable and attractive option that will last through decades of use. As one of our more resilient finishes, Stainless Steel is perfect for products used in salty ocean air and other tough environmental conditions. Products come with a 5-year warranty.

Super TGIC Powder Coat

Available in 18 vibrant shades, super TGIC coated products will stain significantly less from UV light than other finishes. This finish has a 1-year warranty.

Note: Due to variations in the printing process, colors shown may not be an exact match. Please request color samples from Madrax for accurate color comparisons.
